

SMIDMART Datasheet

Jumbo Display Process Indicator (Universal Input)

Industrial Jumbo Display Process Indicator designed for high visibility and accurate monitoring of process parameters. Supports universal input signals and provides reliable performance in harsh industrial environments.

Parameter	Specification
Display Size	4 / 6 / 8 / 10 / 12 Inch
Input Type	Universal (4-20mA, 0-10V, RTD, TC)
Power Supply	85-265 VAC
Display Type	7 Segment LED
Output	Relay / 4-20mA
Communication	Optional RS-485
Accuracy	High Precision
Mounting	Wall Mount
Enclosure	MS Powder Coated
HSN Code	90303100

Key Features:

- High Brightness LED for long distance visibility
- Universal input compatibility
- Programmable alarm relay
- Rugged industrial design
- Multiple size variants available
